HPT TCP National Experts meeting; 27.10.2026

Project 7x: “Heat Pumps in Action”

Building the Knowledge Base for Heat Pumps in Multi-Family Buildings – IEA HPT Project Work

ANNEX 50 asked:

Which solutions are theoretically possible?

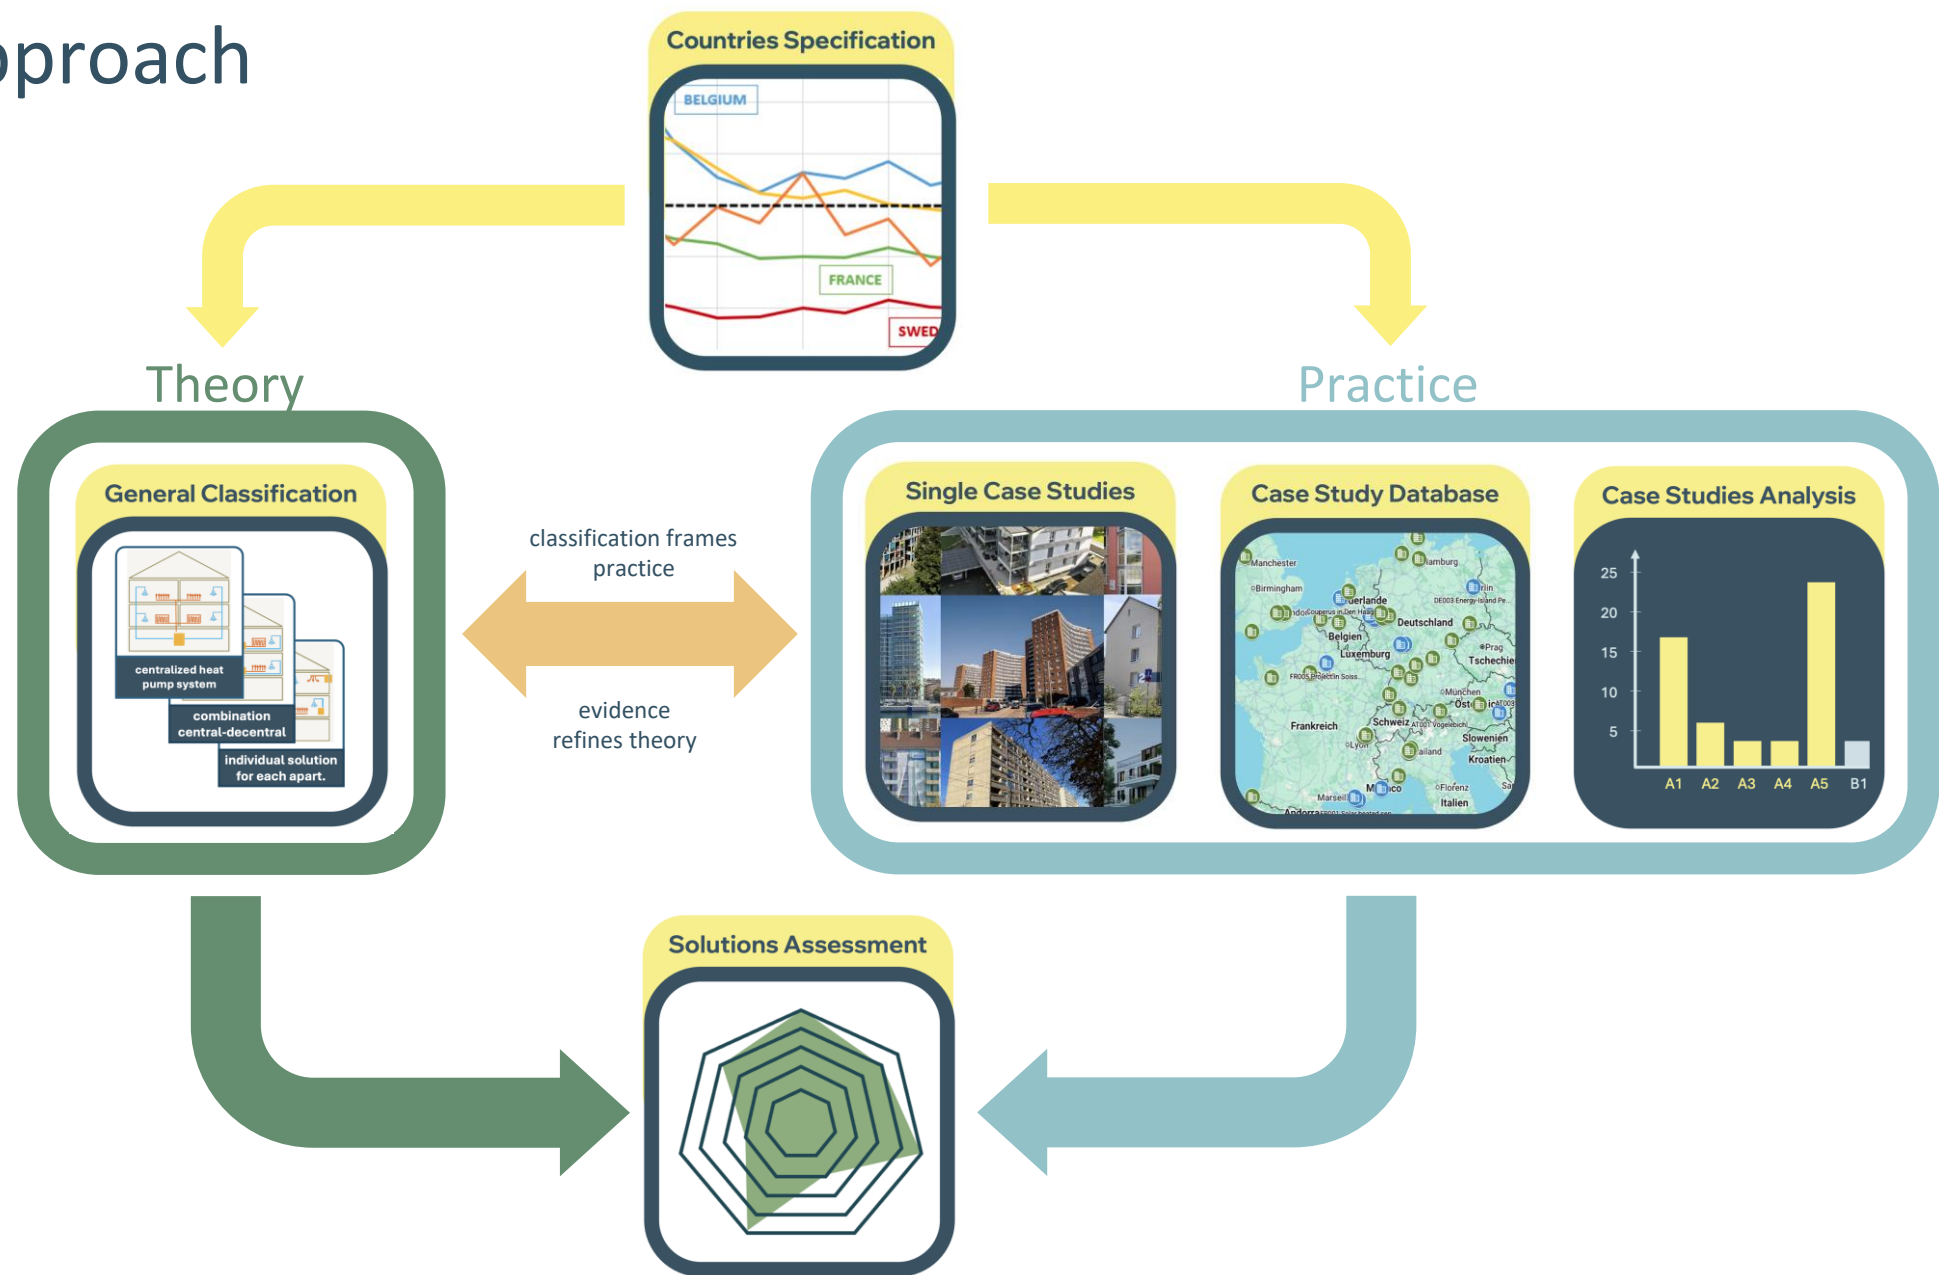

ANNEX 62 asked:

Which solutions fit real urban buildings?

PROJECT 7x asks:

How do we scale heat pumps in practice?

Holistic approach

Reality reshaped the theory

- categories merged
- new categories added
- some removed entirely

Real projects continuously reshaped the framework.

The problem is no longer
“Can it work?”

The question is
“How can it scale?”

Cooling

Monitoring

Collaboration
