Agenda of Annex 50 Webinar

Annex 50 „Heat Pumps in Multi-Family Buildings for space heating and DHW”

Date: 13. June 2023 2pm – 4pm (CET)
Venue: MS Teams

14:00  Welcome
14:15  Task 1: The Country Reports
14:40  Case-Studies and projects from Geneva
15:05  Content and results of the linked national project on Annex 50
15:30  The Netherlands in Annex 50: Overview of national projects, case studies and results
15:55  Summing up and further discussions
16:00  End of Webinar

The Annex 50 “Heat Pumps in Multi-Family Buildings for Space Heating and DHW” has officially ended, but much of the work will continue in the new Annex 62. To keep all interested old and new stakeholders up to date, there will be an Annex 50 webinar on June 13, 2023 from 2 – 4 pm (CET). This webinar will not simply present the results (they can be found here). Rather, it will be about deeper insights into specific case studies and country reports, as well as looking at individual national projects that were associated with Annex 50. The goal of the webinar is therefore to get a deeper insight into the work of Annex 50 and the different tasks as well as to share the acquired knowledge with a broad audience. We welcome all persons who are interested in the topic of Annex 50 and the new Annex 62.
